

# ROBO CASPIAN

## Technical Specifications

### ✓ Body:

Dimensions: Length 137cm , width 71 cm and height 250cm  
1.5 , 2 , 3 mm thick metal

The design is such that the vapors are removed properly  
Ability to install fuel card equipment inside the flag  
Ability to install point of sales system

### ✓ Flow Meter:

Accuracy: 0.2 %  
Flow: 5-90 l/min  
The lowest setting: 0.25 %  
Tolerance of repeatability:  $\pm 0.1$  %  
Delivery volume per round: 0.5 lit

### ✓ Pulse:

Eltomatic Made in Denmark  
Equipped with 2 channels A , B  
Ambient temperature for normal operation: -25 to +75 °C  
Pulse power supply: 4.5 to 12 V – 50 mA

### ✓ Solenoid valve:

Made in Spain Confirmed EEX  
Input and Output Size: 3.4" - 1"  
High quality  
Voltage: 220 V AC / 50 Hz

### ✓ Display:

Type: Seven Segment  
Clarity up to 20 meters  
6 digits for the total price  
6 digits per liter  
3 digits for the unit price

### ✓ Nozzle:

Steam return path  
Polypropylene body  
Stainless Steel parts durability  
Size: 3.4" - 1"  
Equipped with input filter to prevent damage caused by impurities

### ✓ Filter:

Filtering pleated cartridge of 70  $\mu$ m (micron)  
Input and Output size: 1"

### ✓ Hose:

Resistant to various fuels containing MTBE  
Steam return path for dispensers with amber design system  
3.5 , 4 , 5 meters long  
coupling on both sides , one side swivel  
According to the standard EN 1360

### ✓ Mechanical Totalizer:

Gear connection system  
Ability to install on all types of meters  
8-digit counter  
Very high accuracy

### ✓ Junction Box:

Voltage: 380 V  
Flow rate: 10 A  
Certified EX

### ✓ Advertising Display:

Above the Dispenser  
Size: 20"  
Flash memory reader  
Equipped with control
